## Mines and Mining Stocks | Financial and Commercial

## **CARISA MINE** OPENING UP BIG

REPORT FROM PROPERTY WITH Rocco Home Silver King. 21.00 ASSAYS ON ROCK.

spection of that Tintic copper bonanza Victoria ....
and his findings according to data released yesterday, indicate that the mine Butler Lib . 32.30 has never presented a better appearance Beck Tunnel 1.00 has never presented a better appearance than it does today. Disclosures made during the past week are characterized as being the most significant in the history of the mine. Picked samples of ore would give any kind of values from 20 per cent to the limit of copper-bearing ore. In the raise above the 300-foot level, gold and silver values are increasing with every round of holes that are fired, while the copper percentage is running high. This is the same channel in which Jesse Knight mined in the early days and from which he shipped lots of ore that netted him over \$300 per ton. On the 200-foot level Uncle Jesse lost the vein which has now been opened on the 300 level, and which promises to eclipse all former records in the upper workings. From a batch of samples that were submitted to the assayer yesterday morning, the following returns were had last evening:

On the 200 level—Copper 36 per cent; silver, 23 ounces: gold, \$240 same level.

lowing returns were had last evening:
On the 200 level—Copper 36 per cent; silver, 23 ounces; gold, \$2.40; same level, straight copper ore, 30 per cent.

Samples from the 300 level ran 33 per cent copper, 9 ounces silver and 80 cents in gold per ton, while from the raise, which is now up twenty feet above the 300 level, the rock carries 17 per cent copper, 22 ounces silver and \$16.80 in gold.

Rock from the 350-foot level gave returns of 31 per cent copper, 28 ounces silver and \$2 in gold. A sample taken in the extreme southerly end of the 250-foot level workings carried 19.5 per cent copper, 22 ounces silver and \$2 in gold, while 250 feet below, in the southeast workings of the 500-foot level the sample taken in the content of the 250-foot level the sample taken in the southeast workings of the 500-foot level the sample taken in the 500-foot level the sample taken in gold.

#### GETTING INTO SHAPE.

Consolidated Mercur's Output Will Not Be Seriously Crippled.

Mohawk . Red Topp Advices from the Consolidated Mercur company's property, where fire de-stroyed the electric motor house, saw mill. Silver Pick... St Ives ..... stroyed the electric motor house, saw mill, etc., early Tuesday evening, are to the effect that the operation of the big milling plant will not be seriously hindered. An examination of the two electric locomotives that went through the fire disclosed the fact that they could be probably repaired and placed in commission again before the end of the month. In the meantime horses are being secured.

Strives

Bulling

B Nat Bank...

Denver ....

Gold Bar ....

Montgom Mt
Orig Bulling the meantime horses are being secured and the ore trains will be drawn by them until repairs to the electrical equipment

Manager George H. Dern reported to local offices during the day that he Grann did not expect to be able to keep the Jump Jack tonnage up to standard for the next few Man Con ... days, but by the first of the coming week he hopes to be hauling close to the regulation limit. All hands were employed Seyler-Hum yesterday in clearing the tracks, which were but slightly damaged by the burn-ing sheds and by the afternoon it was lossible to run trains as usual with horses that had already been secured. As it takes quite a number of animals to do the amount of work that the two locomotives were handling, it is not expected to have things going at near the capacity of the plant for a day or two yet.

### GOING TO BULLFROG.

Expected That a Large Party Will Leave on Special Sunday Next.

Secretary Fisher Harris and other mem-Secretary Fisher Harris and other members of the Commercial club are working for the success of the excursion to the Bullfrog district. Nevada, over the Salt Lake Route. While the hour of starting has not been definitely settled upon, as yet, it is agreed that the excursion train which leaves Sunday will pull out at an early hour in the afternoon. It will go right through to Beatty, with Pullman coaches and reach camp Monday afternoon, about twenty-four hours after leaving here. Returning it is expected the roon, about twenty-four hours after leaving here. Returning, it is expected the train will pull out for home again either late Tuesday night or early Wednesday morning and reach Salt Lake in time for business Thursday, at the latest. Details of the itinerary will be announced within a day or so

a day or so.

From the looks of things yesterday there will be a large delegation of business and mining men on the special train from here, while a number will be picked up at different towns to the south. As the excursion tickets will have a fifteen-day limit there will be all kinds of opportunity for those who wish to spend several days in the mining camps to take advantage of the chean rate. vantage of the cheap rate.

### MINING STOCK EXCHANGE.

Reaction in Some of the Favorites

Occurs-Sleepers Come to Life. Trading was not as heavy nor as spirited on the mining exchange yesterday as on the day previous, and prices sagged a little. During the two regular and open board calls a total of 97,515 shares of stock, with a selling value of \$27.187, changed hands. Carisa, May Day, New York, Silver Shield and Victor Consolidated, every one of which showed unusual strength on Tuesday, all suffered to a greater or less extent. Slumberers like Century, Daly, South Swansea and Richmond & Anaconda came in for a share of the business, and the prices made in each were altogether encouraging, to say the least. It is hardly to be expected that all stocks will advance every day; the best of them are bound to have reactions and the market yesterday was an illustra-tion of that fact. The keenest interest is still apparent, however, and stocks that are down one day are apt to be up the next. From the speculative standpoint, the present market is the best the exchange ever enjoyed.

Following is the list of final quotations

STOCKS AND BONDS BOUGHT AND LOLD.

stocks traded in on the Boston exchange yesterday showing the range of prices and the number of shares sold. Accompanying the report, which is furnished by James L. Pollock & Co., is the market letter of Paine, Weber & Co., as follows:

Boston, Oct. 17.—The copper share market was inclined to be soft all day. ket was inclined to be soft all day. Heavy liquidation in Amalgamated from a mysterious source made the traders uneasy and caused a decline throughout the list. We expect to see the Amalgamated dividend increased tomorrow and the stock should have a rally from this price. Old Dominion holds better than any other steek in Pesston at present and the burners. stock in Boston at present, and the buy-ing seems to be principally by one house

action. Go los these prices.		tation

Iron Silver .... 5 00 Standard ..... 3 05 Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$168,900, as follows: Silver, lead, gold and copper ores. \$65,000; base bullion, \$95,000; gold bars, \$8,900.

Silver, 63%c per ounce. Copper (casting). 20%c per pound. Lead, \$5.75 per 100 pounds.

### FAIRVIEW EAGLE'S RICH ORE

Silver Taken Out in Chunks-Sulphide Ore Rich in Silver and Gold.

Goldfield, Nev. Oct. 16.—J. W. Morris, superintendent of the Fairview Eagle mine at Fairview, is down from camp with some specimens of the rich ore from the mine, that is attracting attention here, where rich ore is the rule. One piece which Morris took from the shaft now going down on the manganese ledge is almost pure silver, and carries better than 90 per cent of the white metal. From the same shaft and but a few feet away a big chunk of sulphide ore assayed 1,000 ounces silver and six ounces gold.

No effort is being made to stope ore from this rich ledge, and the product of the shaft, which has now reached a depth of eighty feet, is sacked and piled on the dumps, or left underground for safe keeping. When the shaft reaches the 100-foot mark a drift is to be sent out to connect with another ledge, which shows considerable gold on the surface. Judging from phide Ore Rich in Silver and Gold. Following is the list of Utah and other stocks traded in on the Boston exchange which acts for the Phelps-Dodge inter-ests. North Butte sold off fractionally, able gold on the surface. Judging from

## STOCK MARKET VERY SLUGGISH

Transactions Conducted on a Small Scale and Within Narrow Limits.

SMALL PROFITS EVEN IN THAT LINE.

day's form. The undertone was heavy as contrasted with the resisting tendency of yesterday's dull market. Such shifting of the current of prices from day to day is not unusual in a narrow professional market and cften represents nothing more than an effort to secure a variage point for an arrow of the contract of prices from the late decline.

Bonds were irregular. Total sales, par value, \$2,088,000 United States bonds were unchanged on call. as contrasted with the resisting tendency of yesterday's dull market. Such shifting of the current of prices from day to day is not unusual in a narrow professional market and often represents nothing more than an effort to secure a vantage point for overcoming the inertia of the market by a turn in prices for a slightly wider oscillation. Profits for scalping operators were very meager in today's market and there was little else doing. News do elopments with a general bearing on conditions were also scanty, although a few stocks were affected by special causes. Amalgamated Copper was very moderately affected by the supposition that the dividend rate would be raised to 8 per cent at tomornow's meeting of the directors or by the excited jump in the London copper market of over £3 a ton in the price of the metal.

New York Central was rather markedly New York Central was rather markedly heavy. This was attributed to selling of the stock against new stock subscriptions, the demand for the rights to subscribe proving unimportant. Consolidated Gas showed the further effect of the injunction to forbid the company from shutting off gas from consumers who refused to pay more than the 80-cent statute rate. The determination of Albany & Susquehanna stockholders to contest with the Delaware & Hudson, lessor, the saving of refunding at a reduced rate of ining of refunding at a reduced rate of in-terest had some reflection in the stock of the latter.

of the latter.

The sagging tendency of the market was somewhat emphasized by the flurry in call money to 5½ per cent late in the day. Belated borrowers made the rate, but the incident called attention to the fact that the recent stream of replenishment of bank reserves by gold im-

the dip of this fissure it will be entered within a distance of 400 feet, and at the junction there should be an ore body which the management can tackle without fear that it will be speedily exhausted. In the meantime the shaft will continue to go to the deep, the intention being to open the mine in such a manner that, when the order goes forth to cut loose, there need be no cessation of the production.

At the Nevada Hills, the Nestor of the camp, the ore is coming out so fast in the mere prosecution of development work that teams cannot be secured to haul it to the railway. In No. 4 tunnel the entire face is in ore of a shipping grade, grab samples from the material sacked running from \$300 to \$400 a ton. Two men. one on a shift in this tunnel, keep five men busy sorting and sacking, and the daily output of the mine is from eight to

### Mining Notes.

Four carloads of ore from Alta, two from Stockton and one each from Bing-mam, Idaho and Nevada were reported at the Pioneer sampler yesterday morning. Five cars of ore from Tintic, six from Nevada, three from Good Springs, one from Park Valley, two from California and one from Idaho were released from the Taylor & Brunton sampler yesterday morning.

E. P. Jennings, the well-known mining engineer, has returned from a summer's labor in the Lake Copper country, Michigan, where he has been conducting experiments and making tests on ores for some of the big operators of that re-

John A. Kirby left for Tonopah and other portions of Nevada in which he is interested yesterday morning. He will likely be away some little time, for he will undoubtedly take in Fairview and the mines of the Inyo company before returning to Salt Lake. ing to Salt Lake.

W. J. Craig pulled out for Nevada again last night. This time he is bound for a point thirty miles south of Ely, where he is going to size up he copper proposition from which samples of fine ore were secured by Captain J. H. Stallings a couple of weeks ago. D. L. & W...4.. D. & R. G.....

R. J. Evans and P. C. Thompson left for Ely Tuesday night to make an examination of a copper proposition there that has been commended to them.

Samuel T. Godbe, the well-known mining operator and mining engineer, is up from Los Angeles for a few days looking after business matters on this end of the line.

Charles H. Scheu returned from Los Angeles and the Good Springs district yesterday morning. Mr. Scheu stated during the day that he had no complaints to make on the appearance of things in the Good Springs section, though his operations were confined so closely to straight development work that there was little in the way of news to relate concerning them at this time.

Mex. Central Minn. & St. P. Ste. M. .... Preferred ... William of the matter of the confined so closely to straight development work that there was little in the way of news to relate concerning them at this time. cerning them at this time.

M. J. Daily, superintendent of the Silver King company's properties at Park City, has returned from a three weeks' vacation trip to the coast looking as fresh and rosy as a young blood of twenty. He reports having had a splendid time and he will return to the Park this morning ready for the winter's siege at the mone.

for the winter's siege at the mine.

The Century company, operating in the Park Valley district, was in the market yesterday with a carload of concentrates from its gold milling plant that will add a comfortable sum to the company's treasury. The Century property is said to be giving a good account of itself again.

again.

Harvey Hardy is up from the Good Springs country with samples of a new find that resembles nothing heretofore seen in the southern country. In a peculiarly constructed matrix, of quartz and spar is a mass of stuff closely resembling arsenical copper ore and while the rock carries from 5 to 8 per cent of that metal, it also assays 8 to 10 per cent lead and as many ounces silver, with about \$1.50 in gold. The ledge is forty feet wide and if the rock can be marketed at a profit Mr. Hardy says it can be quarried in unlimted quantities. He was looking up a market for it yesterday. The discovery was made on property that Mr. Hardy has owned for some time.

ports and by deposit of government funds has been arrested. At the same time money continues to go to the interior in large amounts on the express movement. The shipment of \$3,000,000 to Toronto to fortify the banks there is also against the local banks. The course of the foreign exchange market this week has indicated a check to the heavy remittances in payment of foreign indebtedness maturing and this would carry with it a cessation of the new borrowing from local banks to meet these foreign payments. Today's weekly statement of the Imperial bank of Germany showed substantial recuperation from the depleted resources caused by the Oct. 1 settlements and the Bank of England added a considerable amount to its bullion hold-

considerable amount to its bullion hold-

The downward course of sterling ex-BROKERS BUSY SCALPING

change in this market, however, is checked. The statement of our special foreign trade for September, issued by the bureau of statistics at Washington, was scanned with attention for its bearing on the exchange situation. The \$3,000,000 increase in growth for the market. 000,000 increase in exports for the month, due to manufactured exports, is contrasted with an expansion of less than a New York, Oct .18.—The currents in the market were again sluggish today and transactions were on a small scale. Within the narrow compass of the movement, however, it showed a reversal of yesterday's form. The undertone was heavy

If you have much or little money, better have it earning something. Remember, all fortunes had their foundation laid in saving, and monmakes money only when it is

put to work. It isn't thrifty to let your money lie idle, particularly when a strong financial institution would pay you four per cent per annum interest on it, compounded semi-annually. We are doing this for hundreds.

GRAIN AND PROVISIONS.

Chicago, Oct. II.—Firm cables had a strengthening effect today on the local wheat market, closing quotations on the December delivery showing a net gain of 4. Corn and oats were also up 4. Provisions were off 5 to 74c.

Despite liberal receipts in the northwest the wheat market opened firm and the initial strength was well maintained throughout the day. The main feature in the situation was an advance of 4d in the price of wheat at Liverpool, notwith-2c on the local exchange. The strength at Liverpool was attributed to private advices from Argentina, which claimed that the wheat crop of that country is suffering from drouth. Commission houses were the principal buyers, the demand from this source being chiefly for the May option. Trading in general was quiet. The market derived considerable firmness during the last part of the session from an improvement in export demand. New York reported forty-five boatloads taken for export, while Duluth claimed the sale of twenty-two boatloads for the same purpose. The market closed firm. December opened a shade higher at 73%, advanced to 74% and closed at 74674%. Clearances of wheat and flour were equal to 108,800 bushels. Primary receipts were 1,019,900 bushels and by wet weather in portions of the corn belt. The firmness of wheat was also a bullish influence. Offerings were light and were taken chiefly by commission houses. The market closed firm December opened a ball she for the portions of the corn belt. The firmness of wheat was also a bullish influence. Offerings were light and were taken chiefly by commission houses. The market closed firm December opened were also and butchers, 6.66.69; good heavy, 6.256.50 feel so of wheat was also a bullish influence. Offerings were light and were taken chiefly by commission houses. The market closed firm December opened were also not always and heifers, 1.500. Market steady to weak. Native, by commission houses. The market closed firm December opened 4 higher of 42%.

by firm cables and by wet weather in portions of the corn belt. The firmness of wheat was also a bullish influence. Offerings were light and were taken chiefly by commission houses. The market closed firm. December opened ¼ higher at 42%, sold up to 42½ and closed at the highest point. Local receipts were 247 cars, with 133 cars of contract grade.

Trading in oats was extremely dull, but prices showed a firmer tone. An advance of ½ to ¼ in the price of cash oats stimulated the demand for options. December opened a shade higher at 33%. sold between 33½@33% and 33% and closed at 33½@33%. Local receipts were 268 cars.

Provisions were sale because of the corn belt. The firmness of the corn belt. The firm belt. The corn belt. The firmness of the corn belt. The corn bel

sold between 334,633% and 33% and closed at 334,633% Local receipts were 268 cars.

Provisions were weak because of a decline in the price of live hogs. At the close January pork was off 5c at 13.67½. Lard was down 7½ at 8.12½. Ribs were 5c lower at 7.4067.42½. Estimated receipts for tomorrow: Wheat, 71 cars; corn. 211 cars; oats, 270 cars; hogs, 27,000 head.
